Outreach Activities:

On April 28, we celebrated Earth and Arbor days. The North Eastern SWCD hosted a tree planting demonstration for the kindergarteners at Alvis Elementary in Clayton. With the help of NRCS, the District Board and Earth Team Volunteers, we fought the wind as we explained the benefits of planting trees. It was a good day to demonstrate the effectiveness of windbreaks! At the end of the presentation each student was rewarded with a tree of their own which included instructions for planting and care.

The NESWCD has been donating trees to the school since the early eighties.

Q&A session

Back Row: Matt Wiseman, Jennifer Poling, Barbara Podzemny, Levi Irwin. Front two rows: Sr class of 2022.

I have decided to fly the coop by accepting the DC position in Deming. This means my short stint as Region 5 Rep will end as of May 22, 2010. I will gladly fill the vacated Region 3 position for the remainder of my term.

Respectfully,

Matt Wiseman
